CLEVELAND!

The Twenty-Fourth President.

A Change in the Rulers of the Government Takes Place.

Grover Cleveland's Inauguration a Veritable Human Tragedy.

In His Inaugural Address He Criticizes Protection, Tariffs, Trusts, and Monopolies.

WASHINGTON, March 10.—The inauguration of Grover Cleveland as the twenty-fourth president of the United States, took place today at the Metropolitan Opera House, and was one of the most brilliant and successful of the nation's history. The ceremony was attended by a large number of distinguished guests, and the proceedings were conducted with the utmost order and dignity. The president-elect, Grover Cleveland, was sworn in by Chief Justice Melville, and then delivered his inaugural address. In this address, he criticized protection, tariffs, trusts, and monopolies, and called for a more liberal and economical government. The ceremony was a grand affair, and the people of the United States were proud to witness the inauguration of their new president.

A Hustling Company.

The Southland Coal and Iron Co., recently organized, will at an early date open up some of the largest coal mines in the Big Sandy Valley, the seat of operations being in Honey Camp hill on the headwaters of Nal's creek, a few miles south and east of Richmond.

Some three years ago Mr. Southard, who is from Pennsylvania, and is equally well posted in coal and lumber, went to that section, ostensibly to engage in the latter business. Accordingly he purchased large interests in the above named section, and, building a train road from Richmond, erected a large saw mill, in the heart of a delightful timber country, that has been most successfully run ever since.

That there were other things in that section than timber seems to have been recognized at a glance by the investor, who said nothing at the legendary tales that reached him of surprisingly large coal deposits in that very territory. But later events proved that he was fully alive to all about him, and gave but little consideration to the impediment that had always before stood in the way of an attempt at development, namely: the almost impenetrable wilderness that surrounds it.

Mr. Southard set on foot a series of investigations, tracing the range and drift, he had the veins opened up, and in consequence has one of the finest coal territories in all that section.

The vein found is twelve feet in thickness, three of which is the best grade of coal—laid lying between a rock roof and bottom. It is one of the greatest finds in the history of the Big Sandy coal business, and will prove a veritable gold mine for its owner. Besides this, another series of veins of the famous Peach Orchard split coal have been located, and will also be worked in connection with the other.

This can be done by building a four-mile stretch of road from Richmond, which will be ample to reach all the mines so far located. The company that has been organized is all composed of wealthy and experienced Pennsylvania operators, who will, it is stated, begin the work of opening up the mines at once, and hope to have them in operation on a large scale by late summer. They mean business from the start, and will lose no time in getting all things ready.

The Big Sandy country is rapidly developing into one of the best coal producing sections, and has a bright future. A railroad can be gotten down to thoroughly in the near future.

A Canning Factory.

A movement is on foot to establish a canning factory at Louisa.

An enterprise, whose success is not to be doubted, it furnishes a market for farmers and gives employment to the women and children of the country, and also a source of income for the community.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

OUR NEIGHBORS.

A castle of Knights of the Golden Eagle will be instituted at Paintsville, to-night by members of Louisa and Fallsburg lodges.

The U. S. A. D's new bridge across the Big Sandy at Catlettsburg will be a fine structure. It will be sixty feet wide, with a double railroad track, two ten-foot wagon ways, and two five-foot passenger ways. It will take several months to build it, and about three hundred men will be employed on it. The location is to be eighteen hundred feet below the old bridge. When finished it will be one of the most complete small railroad bridges in the country.

The Sandy River Transportation Company has sold the steamers Frank Preston and Sandy Valley to the East Line Transportation Company, and G. F. Adams of Catlettsburg, has been elected Superintendent.

Williamson will be incorporated next Circuit Court at Louisa. So will Nolan, Duggess and Matewan. Of these four small communities Matewan has a church, and neither of them a respectable school house. It is now a conceded fact that Logan county will either have to build more school houses and churches or enlarge her jail, which shall we do, and which will be the most profitable in our future? Logan C. H. is the only town in the county that deserves any credit at all for her schools and churches. Let Williamson and other towns follow her example.—New Era.

There is a busy, pushing spirit abroad in the Big Sandy country, and the energetic men in that section are trying it rapidly from the east. Those who have heretofore been kept out because of the rapid change of life in these sections, says the Ashland News, through the efforts of energetic and energetic business men, and the equally good effect of the press of the State, are beginning to be converted to the idea that the country of dark lawlessness in the Big Sandy valley are past and a season of progress, success and prosperity is approaching.

The recent census of fifty-five Lewis county people to Kansas was due to the solicitation of a planter agent of Kansas land speculators. The abandoned towns of Kansas must be filled up in some way, says the Ashland News, through the efforts of energetic and energetic business men, and the equally good effect of the press of the State, are beginning to be converted to the idea that the country of dark lawlessness in the Big Sandy valley are past and a season of progress, success and prosperity is approaching.

Ashtand News: Carter county farmers are more than ever preparing for a general tobacco raising campaign, and that county promises to produce some of the best, and certainly the greatest amount of any county in this section of the State.

The recent term of the Magellan court, found 25 indictments, mainly for whiskey, gambling and other crimes. This has had the effect of closing all the "blind tigers" in the county. Two indictments for murder were found against Leander and Samuel Hinson, and eight others were indicted for participating in the recent battle at that place. The defendants were adjourned to trial in \$5,000 each. Monday week's case came into court and Samuel Hinson himself and will stand his trial. The body of men he brought back from W. Va. is still there. No further trouble is expected.—Paintsville Courier.

Sullivan & Kise sells more flour than any two stores in town.

We will have to barrels of flour in this week. Perry takes the lead.

Get a Spencer for any kind of groceries you want and you will find them.

Try Huns's tea at Frank Yates' \$1.00 per pound.

All kinds of seed potatoes at Sullivan & Kise, cheapest grocers in town.

A. V. Huns, of Spence's, is a very busy man.

WASHINGTON, March 16.—SENATE.—The Senate today resumed its session on the bill for the relief of the pensioners of the late President Grant. The bill was passed by the House on February 22, and the Senate is now considering it. The bill provides for the payment of \$100,000 to the pensioners of the late President Grant, and the Senate is expected to pass it today.

WASHINGTON, March 17.—SENATE.—The Senate today resumed its session on the bill for the relief of the pensioners of the late President Grant. The bill was passed by the House on February 22, and the Senate is now considering it. The bill provides for the payment of \$100,000 to the pensioners of the late President Grant, and the Senate is expected to pass it today.

SAINT LOUIS, MISS., MAR. 4, '03.

MR. EDITOR:

As I am a reader of the St. Louis News, and also one of the Eastern Kentucky boys, I thought I would write a few lines to your interesting paper.

We are still having cold weather and plenty of snow. Our first snow fell on Christmas eve, and it is still with us; not much, of course, only three feet. The coldest spell of the season was from January 15th to February 15th; the mercury ran from thirty to fifty degrees below zero for a month. During the cold spell we had quite a number of blizzards. The trains on the Great Northern Railroad had to stop running for twenty-four hours, on account of the track being blocked with snow. One passenger train, No. 10, was nine hours running the distance of fifty-five miles, averaging five and two thirds miles per hour. It is amusing to see these snow engines making their way through a snow drift, throwing it snow an hundred feet in the air. We have had no rain since last September.

I like Minnesota much better than my native State. This is, of course, a cold climate, but I prefer the cold to the mud and rain. I saw in a recent issue of the NEWS where Sap Head, of Blaine, said mud, mud, nothing but mud, while on the other hand I can say snow, snow, nothing but snow—and at present the prospects are very favorable for it remaining some time.

We have good schools, churches and five or six different races of people. We have Swedes, Germans, Norwegians and English in our town. They are good citizens, too.

For fear of this being thrown in the waste basket, I will write no more at present. Wishing the NEWS and its many readers success. I remain, Yours Truly,

J. T. GRIFFITH.

THRAD.

Not having seen anything in your valuable paper from this part I thought I would give you a few items that will interest the public in general.

Your reporter had the pleasure of seeing Mrs. Vina Barnett on our streets recently.

Died, on the 25th ult., Mrs. Ellen Berfield. She leaves a husband, several children and a host of friends to mourn their loss. The bereaved family have our heartfelt sympathy.

Dock Jordan has left our community and gone to Cherokee to engage in the saw mill business.

Wm. Carter is talking of moving to his farm on Sand Branch, which he recently purchased of Wm. Watson.

Farmers are busily engaged in preparing for their crops.

Moses Skages hurt his hand very badly the other day while at work Henry Woods, of Green Valley, was seen on our streets recently.

Harvey Chaffins has completed his cross-tie job on Sand branch.

Our school is progressing very nicely, with Ellie Graham as teacher.

Success to the NEWS and all of its readers is the wish of

ROLYER.

Three days is a very short time in which to cure a bad case of rheumatism; but it can be done if the proper treatment is adopted as will be seen by the following from James Lashert, of New Brunswick, Ill.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. I cured me in three days. I am all right to day, and would insist on every one who is afflicted with that terrible disease to use Chamberlain's Pain Balm and get well at once." 50-cent bottle for sale by all druggists.

The strongest recommendation that any article can have is the endorsement of the mother of the town. When the mothers recommend it you may know that that article is more than ordinary. Here is what the Centerville, South Dakota, Citizen says editorially of an article sold in their town: "From personal experience we can say that Chamberlain's Cough Remedy has broken up colds for our children. We are acquainted with many mothers in Centerville who would not be without it in the house for a good many times its cost, and are recommending it every day. 50-cent bottle for sale by all druggists.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, it acts on the blood and cleanses the system, and gives the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address, F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Jewelry Silverware Stationery Books and Novelties

Always In Stock.

JEWELS FOR JEWELS

of course, and why not? In the natural order of things it is to be expected. Our stock of Jewelry contains what are jewels with a large J. It's the season now when the belle of the ball weaves her spells, and beauty instinctively seeks the reinforcement of art. When it comes down to Jewelry we are floating down the stream of fashion, and are nothing if not correct. Our stock wasn't purchased to keep. Sufficient unto the season is the stock thereof.

our case "SELL" is the order of business, and sell we will. We are offering good values at low prices.
